

Sites of Interest

Here is a list of interesting and good places to start exploring the World Wide Web. Also check out the PC Center's Links of Interest page at www.carnegielibrary.org/locations/pccenter/links.html for more links.

To Open One of These Web Sites:

1. Double-click on the *Internet Explorer* icon to start access to the WWW.
2. Put the mouse pointer in the *Address Bar*. When the mouse pointer becomes an "I", click once. This will highlight the current URL or web address.
3. Type in the address for the web site you want to visit. The address is the second line of the places listed below. Be careful not to make any typos. You must be exact as though you were dialing a phone number.
4. Press the *Enter* key on the keyboard. This sends the computer on its way!
